Importer Security Filing (ISF-5) Information Sheet

This information sheet is not the ISF filing. It is a form to provide the data elements needed to file the ISF. U.S. Customs requires that ISF be accepted and on file with Customs a minimum of 24 hours prior to the vessel departing. Failure to file ISF timely and accurately with Customs can result in penalties of \$5,000 - \$10,000 per ISF.

Shipment Information				
Estimated Sailing Date of Mother Vessel (ETD)		Mother Vessel Name & Voyage Number		
Carrier Code (4 alpha character) SCAC:		AMS Bill of Lading Number For ISF		
Is the AMS bill of lading number the house or master? <input type="checkbox"/> House <input type="checkbox"/> Master		Port of Discharge		
IMPORTANT: Customs requires that the ISF be filed at the lowest bill of lading level that the carrier input into AMS. The SCAC and bill of lading number used for ISF must match the SCAC and bill of lading number that the carrier/forwarder filed in AMS. If the SCAC and bill of lading number in ISF and AMS do not match, Customs will indicate that the ISF bill of lading number is not on file. Thus, Customs would consider the ISF to be inaccurate.				
Importer of Record/Company Name				
Address		City	State/Province	Country
Zip/Postal Code				
Booking Party Name				
Address		City	State/Province	Country
Zip/Postal Code				
Ship To Name
